ABOUT US

Our founder, LATIF ATEŞ, traveled to Enkhuizen, Netherlands, with his wife in 1987. Latif ATEŞ started working at DE WIT, a tulip bulb production and export company in Bovenkarspel, the Netherlands. He served DE WIT company for a total of 5 years between 1987 and 1992. With the support of his boss at the time, LATIF ATEŞ brought the first tulip bulb after the Ottoman Empire to Turkey.

From 1992 to 2016, tulip onion imports and exports were carried out under the leadership of LATIF ATEŞ and in partnership with other companies. In May 2016, LATIF ATEŞ restarted tulip production in an area of 50 decares in its hometown, Kızılkuyu, with its company headquarters in KONYA and production center in KARAMAN, which is extremely good for its partnerships with other companies. Today, ATLAS LALE, which has a production capacity of 25 million perennial bulbous plants per year, has a 95% wholesale and retail sales segment of Turkey.

LATIF ATEŞ also cultivates 5,000 decares of land and produces Sweet Corn, Grain Corn, Barley, Wheat, Dried Beans, Appetizer Pumpkin, Ornamental Squash and Oil Sunflower on these lands.

43 people work permanently and seasonally within ATLAS LALE. ATLAS LALE also exports tulip bulbs to the United States, Germany, the Netherlands, Azerbaijan and Russia.

**Best Regards,
Turkey's largest producer of tulips..

How to plant tulip bulbs?

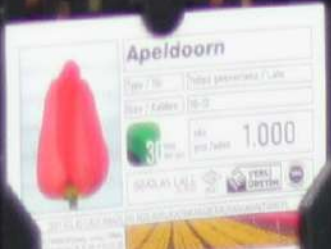

1m

Soil Surface

***Tulip bulbs should be planted 10-15cm deep and 5-10cm apart.
The soil structure must have good drainage and water permeability.***
